

Project Details (UT/BMRCL/NAMMA/P04/092025)

Sr.No.	Document No.	Page No.	Paragraph No.	Description
1	DBR.1	5	1.1.1	Geometric Design Features
	"Loading corresponding to Modern Rolling Stock (MRS)." not appreciated. Please clarify or remove if not necessary.			
2	DBR.1	5	1.3	Scope of Design Basis Report
	Please review the Para 1.3 as per Model DBR for Elevated Station. submit a separate DBR for viaduct integrated with the Road flyover.			
3	DBR.1	8	2.1.3.6 Note (iv)	Structural Steel
	This DBR is for elevated stations only. Note-(iv) of Para 2.1.3.6 not appreciated. Please clarify or delete the Note. 'For Road Traffic Design of steel structure will be governed by IRC 24.'			
4	DBR.1	9 & 10	2.4	design Load
	Please delete following codes, i. Coefficient of Dynamic Augment ii. Braking/Traction Load ii. Racking Forces			
5	DBR.1	9 & 10	2.4	design Load
	Please review the applicability of following loads in the design of elevated stations. i) Train Live Load ii) Coefficient of Dynamic Augment iii) Braking/Traction Load iv) Racking Forces			
6	DBR.1	10	2.4.2 , 2.4.3 & 2.4.4	Superimposed Dead Loads (SIDL)
	Please review the Para 2.4.2, 2.4.3 & 2.4.4 as per Model DBR for Elevated Station.			
7	DBR.1	11	2.4.5, 2.4.6 & 2.4.7	LL , CDA & BR/TR
	Please review the Para 2.4.5, 2.4.6, and 2.4.7, as these are not applicable to the DBR for Elevated Station.			
8	DBR.1	13	2.5.1 (VI)	Ultimate Load Combinations
	1. Please delete the following line, 'Load combinations as per IRC where Road live loads are applicable.'			

Sr.No.	Document No.	Page No.	Paragraph No.	Description
	2. Metro shall submit a separate DBR for the Elevated Station integrated with road flyover, where loads from the Road Flyover are considered.			
9	DBR.1	Overall	Overall	DBR of Elevated Station
	Please provide a specific list of all Codes/Standards/Manuals, along with their latest versions/amendments and correction slips, that have been referenced in this DBR.			
10	DBR.1	Overall	Overall	DBR of Elevated Station
	1. A change sheet is to be submitted listing all changes made in the document. 2. A certificate should be submitted that there is no change other than those mentioned in the change sheet. 3. For any clarification, Metro officials may visit RDSO with their design team/consultants, or ask for an online meeting.			
11	DBR.1	15	2.8.2	DESIGN OF PILE
	Please review the codes referred in para. May refer the model DBR for elevated station.			
12	DBR.1	14	2.6	Deflection criteria
	Second sub para may not be necessary as structural members carrying train live load shall be designed as per DBR for viaduct.			
13	DBR.2	Overall	Overall	DBR for Bored Tunnels
	Please check. Metro has uploaded the DBR for Elevated Stations under tab of Bored Tunnel.			
14	DBR.3	Overall	Overall	DBR for Viaduct
	1. The submitted DBR pertains to a Viaduct integrated with a Road Flyover but has been uploaded as the DBR for Viaduct. Therefore, Metro is advised to submit separate DBRs — one for the ' Viaduct ' and another for the ' Metro Viaduct integrated with the Road Flyover '. 2. Metro is also advised to provide a clear and legible project map and following details as Annexures: a. Sanction Letter issued by the Government of India. b. Project Title. c. Corridor length, with separate details for ' Viaduct ' and ' Viaduct integrated with Road Flyover '. d. Station details with type. e. Project details covering all phases and key project components. 3. Please provide a specific list of all Codes/Standards/Manuals, along with their latest versions/amendments and correction slips, that have been referenced in this DBR.			
15	DBR.4	Overall	Overall	DBR by Cut and Cover
	No Cut and Cover section is proposed in the project.
